## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 18-38 are finally rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

New claim 18, in part (d) recites "at least one bit assembly including at least one bit extension", however the original application clearly requires one assembly including one extension for each of the plurality of bits. To now claim that there can be one assembly for the "plurality of bits" is vague and not apparently supported by the original specification and drawings. The limitation also implies that there can be more than one extension for each bit and this also is vague and confusing in view of any previous disclosure of such a structure.

There is also no antecedent basis for "the radial direction" and "the transverse or lateral direction" in this claim and "said retracted position" in claim 32.

Further, it is suggested that --said-- be inserted before "tool" in part (d) of claim 32.

3. Normally a claim which fails to comply with the first and/or second paragraph of § 112 will not be analyzed as to whether it is patentable over the prior art since to do so would of necessity require speculation with regard to the metes and bounds of the claimed subject matter, **In re Steele**, 308 F.2d 859, 862-63, 134 USPQ 292, (CCPA 1962) and **In re Wilson**, 424 F.2d 1382, 1385, 496 USPQ 494, 496 (CCPA 1970). Therefore only claims 18-31 will not be analyzed with respect to prior art.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 32-38 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Lemieux in view of Koehler.

Lemieux shows the claimed invention except for the use of a use of a flat extension instead of a round extension. Koehler suggests that a driver can have such a flat extension to resist lateral deflection. It would therefore be obvious to one skilled in the art at the time the invention was made to modify Lemieux by using a flat extension because Koehler suggests the use of such a flat extension.

***Response to Arguments***

6. Applicant's arguments filed 18 July 2002 have been fully considered but they are not persuasive.

The newly filed claims 18-31 are not understandable as stated above and they are so rejected.

New claims 32-38 are also indefinite, but not so as to prevent the application of prior art and a rejection is so made as the only difference between the claims and Lemieux is the use of a flat extension element to resist lateral deflection, which is clearly suggested by Koehler.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3723

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
